Re: N Bayshore Dr – NE 17 Terr to NE 19 St
City of Miami Project No. B-50658

Mr. Magrisso,

Based on the roadway design plans dated October 5, 2006 for the referenced project, BellSouth facilities of record appear to be correctly depicted on the plans as indicated on "marked plans" provided August 29, 2005. No conflicts have been identified requiring relocation by this utility. The current disposition of all existing BellSouth facilities indicated on the plans for the project is "TO REMAIN".

Sincerely,

Steve Massie, Project Manager
Network Support- SFL District

Downtown Storm Sewer Project
North Bayshore Drive
Project Number :B-50658
Miami, FL
Comcast ID 2972 / Comcast Node MIAQ

Dear Ms GONZALEZ, EI

Please Be Advised, ...in reference to the **Downtown Storm Sewer Project @ North Bayshore Drive**, Comcast has *no conflict* to the proposed project.

Comcast has existing active subgrade plant within the limits of this project.

Note: Please contact Comcast for any potential conflict with your proposed design for a joint onsite field review to determine our existing subgrade plant location in proximity to your conflict.

Should you have any further question, please feel free to call me at 1-954-534-7380 fax 1-954-534-7083 or e-mail at Leonard_Maxwell-Newbold@cable.comcast.com

Sincerely,

Leonard Maxwell-Newbold

RE: City of Miami Project # B-50658
From N.E. 17th Terr to N.E. 19th St
Final Submitted

Dear Ms. Gonzalez,

FPL has reviewed the final submittal of plans dated 11/26/2008 for FPL's overhead and underground facilities that may have potential conflicts within the area of this project. Based on these plans, there were no FPL conflicts seen that would impede your proposed improvements. Therefore, FPL has no relocation work needed for this project at this time.

FPL calls your attention to the fact that there is energized high voltage electric lines located in the area of this project. It is imperative that you visually survey the area and that you also take the necessary steps to identify all underground facilities prior to commencing construction and determine whether the construction of any proposed structures will bring any person, tool, machinery, equipment, or object closer to FPL's power lines than the OSHA - prescribed limits. In case of any unforeseen conflicts FPL will require a 30 day lead time to respond.

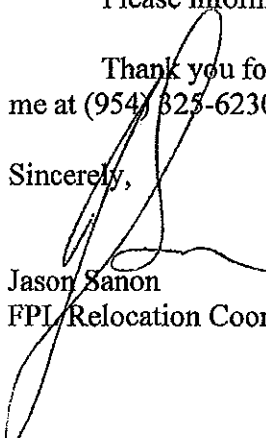

FPL does not have any plans at this time to install new distribution facilities within the project boundaries. If this changes, we will advise you and coordinate with the road construction activities.

I understand there are no improvements to lighting system, and no need for FPL improvement.

Please inform me at least a week before your road construction starts.

Thank you for your cooperation, and should you have any questions, please call me at (954) 325-6230.

Sincerely,

Jason Sanon
FPL Relocation Coordinator

Project description:
-North Bayshore Drive

Dear Sir or Madam,

Level 3 Communications, LLC is in receipt of your letter dated 10/6/2006 regarding the above reference project.

After reviewing the information you furnished and comparing it to our records, Level 3 has facilities within the scope of your Project; however, we do not anticipate that any relocations or adjustments to our facilities will be required.

If your Project's parameters change beyond those previously submitted to Level 3, please contact me directly so we can discuss any potential new impacts to Level 3's Facilities. Please reference the file number set forth below with any future communications.

Please note that this letter applies to both Level 3 Communications and WilTel Communications, which Level 3 acquired on or about December 23, 2005.

Sincerely,

A handwritten signature in black ink that reads "Rick Miller". The signature is fluid and cursive, with a long horizontal flourish extending to the right.

**RE: North Bayshore Drive, City of Miami
Project No. B-50658**

Dear Mr. Magrisso

We have reviewed the set of plans dated August 15, 2007 and submitted to our office on August 17, 2007; the proposed project is not in conflict with any existing MD-WASD facilities.

Although conflict was not found; due to work performed by the project, it may be necessary to adjust valves and manholes to final grades. MD-WASD would like to do an agreement with the City of Miami to do the valve and manhole adjustments thru the city contractor.

MD-WASD requires that access to all water and sewer valves, sanitary sewer manholes and other control mechanisms be maintained throughout construction in the event of an emergency to ensure the public health and safety. Covering valve boxes and manholes can be considered unauthorized obstruction of and tampering with Department Utilities.

We are issuing this clearance letter based on existing utilities shown on our records; please resubmit your project for review if any changes are done to the plans.

Please contact me at 786-268-5242 if you need any additional information.

Sincerely,

Sergio A. Garcia, P.E.

RE:	DESCRIPTION:	Downtown Storm Sewer Project North Bayshore, between NE 17 th St. and NE 19 th St.
	PROJECT NO.	B-50568
	COUNTY:	MIAMI-DADE

I HEREBY CERTIFY THAT TECO-PEOPLES GAS HAS EXISTING FACILITIES LOCATED WITHIN THE ABOVE PROJECT LIMITS.

I HAVE REVIEWED TECO-PEOPLES GAS RECORDS AND CONDUCTED A FIELD REVIEW OF THE ABOVE PROJECT. BASED ON THE R.J. BEHAR & COMPANY PLANS DATED 2/1/2007, IT HAS BEEN DETERMINED THAT NO RELOCATION OR ADJUSTMENT WILL BE NECESSARY FOR THIS CONSTRUCTION.
