

# City of Miami

CARLOS A. MIGOYA  
City Manager

To Whom It May Concern:

Re: Red Light Traffic Camera Program

The City of Miami is currently soliciting proposals for the implementation of a red light traffic camera program (Program) and we are requesting your assistance.

As part of our Request for Proposal process, we require that a company include in its response the attached letter of recommendation from public entities with which it has contracts for red light traffic camera programs. By requesting that your public entity complete the attached form, the company providing this form identifies your Program as being similar in size and complexity to that of our proposed Program.

We appreciate you taking the time to complete the attached form and returning the form to the company so that they can include the questionnaire with their response to our RFP.

Sincerely,

A handwritten signature in blue ink, appearing to read "Gary Fabrikant", is written over the word "Sincerely,".

Gary Fabrikant  
Assistant Director
